EDUCATION

Software Engineer
Universidad Americana UAM

WORK EXPERIENCE

Web Developer
PROFI

San Jose, Costa Rica
Custom Booking engine development using PHP, JavaScript, and MySQL. Custom WordPress websites. API Integrations.

Web Developer
CIP Reporting

Chantilly, Virginia
Big data report management and custom development using Laravel PHP and ag-Grid.

Software Engineer
Jazz Gaming Solutions

San Jose, Costa Rica
PHP API restful and SOAP updates and Integrations. Betting and sport scores systems development.

Recent Devlopment Product
PPH Calculator

*My most recent proud product **PAY PER HEAD CALCULATOR** it's about an old 5.3v PHP system used to manage large reports with hundreds of filters and agent commissions calculations. I make this upgrade to PHP 7.3v on my own in 3 months from the PHP API rest from scratch using a proxy to protect the API endpoint, namespaces, auth, and token verifications. To the front-end App, I used Angular 8 CLI and AG-GRID data tables to manage live data and reports. I have to design a MySQL database with stored procedures to improve performance and protect the data.*

SKILLS

PHP MySQL JavaScript Angular HTML5
CSS AWS APACHE GIT

ABOUT ME

7 years of experience in developing projects to internet with success. Programmer with great debugging skills and very good dealing with big issues and bugs in JavaScript, Angular CLI and PHP. Many hours refactoring and writing Object-oriented programming code to develop huge custom websites, WordPress, landing pages with complex tracking methods, big data reports. online games, gambling, scores and betting systems.
